Fold, Insert and Seal in One Seamless Process

Combined with our mail management software, the DS-65 is the perfect solution to process any type of transactional mail or direct marketing campaigns.

Whether you are running checks, multi-page invoices, statements, business correspondence or transactional mail, the DS-65 is an ideal choice for a wide variety of applications.

The DS-65 enables you to adapt the contents of your mailpiece for each recipient. Neopost's barcode solution ensures the correct documents are inserted into each envelope. In a few simple steps, OMS-100 software uses your print file and adds a barcode anywhere on the document. The exclusive CIS scanning technology of the DS-65, combined with OMS-100, ensure full security and the content integrity of each envelope.

The Complete Document Process

- 1 With Neopost's output management software, you have the ability to make your document intelligent by adding barcodes
- 2 OMR/BCR scanning technology on the DS-65 securely processes your intelligent mail automatically
- 3 Optimize postal costs and expand your business opportunities

Environmental Commitment

The DS-65 carries Neopost's Eco-Label which aims to provide a clear and consistent set of environmental performance criteria used in the design phase of our products.

How We Reduce Our Environmental Footprint:

- Neopost limits the machine weight and the amount of raw materials used for production.
- The volume of our packaging is kept to a minimum and is 100% cardboard and recyclable.
- Packaging for the DS-65 represents less than 20% of the total weight of the packed product.
- The user-friendly sleep mode helps reduce energy consumption.
- We develop our products to ensure a minimum recyclability rate of 75%.

Compact and Easy-To-Use Mail Solution for Everyone

1. Automated Stacker

The exclusive high-capacity envelope stacker is designed to improve accessibility and unloading of envelopes on the fly.

2. Touch Screen Display

The graphical touch screen and intuitive user interface display make the DS-65 easy to operate by any department.

3. Insert Feeder

The high-capacity insert feeder enables you to load any type of insert (flyers, coupons or business reply envelopes).

4. Daily Mail Feeder

The dedicated daily mail feeder enables you to manually feed mail of variable content.

5. Document Feeders

The FlexFeed multi-format feeders accept several document formats for maximum flexibility.

6. Folding Technology

The exclusive PowerFold technology folds up to 8 documents. This is key for delivering professional looking mailpieces.
